BULID A WEB APPLICATION USING NODE-RED SERVICE

Team ID	PNT2022TMID41351
Project Name	Smart farmer-IOT Enabled smart farming
	application

```
You should set your own key using the 'credentialSecret' option in your settings file. Node-RED will then re-encrypt your credentials
                                                                                                                                                                                                                                           our credentials.
                                                                                                                                                                                                                                                                    If the system-generated key is lost for any reason, your credentials file will not be recoverable, you will have to delete it and re-enter
                                                                                                                                                                                                                                                                                                                                                   Your flow credentials file is encrypted using a system-generated key.
                                                                                                                                  file using your chosen key the next time you deploy a change.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 m node-red
